

# Investors Mutual Australian Share Fund

Factsheet as at 31 March 2021

## Fund overview

The Investors Mutual Australian Share Fund provides exposure to an actively managed portfolio of quality Australian shares listed on the ASX. The Fund aims to provide attractive investment opportunities for investors seeking medium to long term capital growth with income. The Fund applies IML's conservative quality and value investment philosophy with a long-term focus and aims to deliver consistent returns to clients.

## Investment philosophy

IML's investment philosophy is based on the premise that over the long-term, a company's share price will reflect its underlying inherent value. We seek to buy and own companies with a competitive advantage, recurring earnings, run by capable management, that can grow, at a reasonable price.

## Investment style

IML has an active, "bottom-up" approach to identifying, researching and valuing quality companies. The investment style is built upon a systematic and disciplined research process that aims to deliver superior risk-adjusted returns by favouring quality stocks whose share prices are significantly different from their assessed 'inherent value'.

## Growth of \$10,000 invested at inception

## Delivering Risk Adjusted Returns

Since Inception Risk Return  
06/30/1998 to 03/31/2021 (M) Currency: AUD Portfolio: Investors Mutual Australian Share Fund Benchmark: S&P/ASX 300 - Total Return Multiple Statistics

Past performance is not a reliable indicator of future performance.

“One of the best within the Australian equity value space.”

“One of the hallmarks of the strategy is strong downside protection. This came to the fore during the recent coronavirus sell-off as IML's strategies achieved the lowest decline amongst the category.”
