

# Investors Mutual Equity Income Fund

30 June 2021

## THE FUND AND INVESTMENT OBJECTIVE

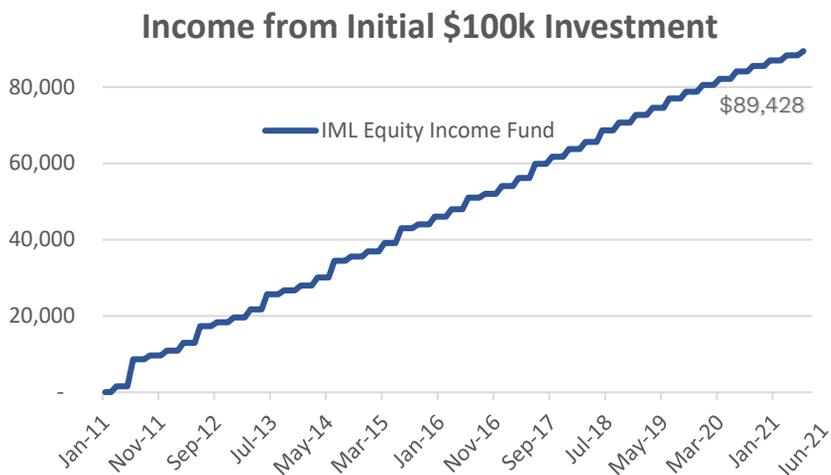

The Investors Mutual Equity Income Fund aims to provide exposure to a diversified portfolio of quality Australian shares for investors seeking a regular and relatively high-income stream and lower levels of volatility compared to the ASX300, along with some capital growth over time. The fund applies IML’s conservative quality and value investment philosophy with a long-term focus and aims to deliver consistent returns to clients.

The Funds income objective is to provide a distribution yield in excess of 2% above the S&P/ASX 300 Index on a rolling 4-year basis (after fees and expenses and before tax). The Funds risk objective is to deliver returns with lower volatility than the S&P/ASX 300 on a rolling 4-year basis.

## INVESTMENT STRATEGY

The objective of the Fund is to invest in quality Australian shares with consistent and sustainable dividend yields and seek to enhance the income to investors with conservative option strategies.

## INCOME RECEIVED EACH YEAR BASED ON INITIAL \$100K INVESTMENT\*

“Our preferred value equity income strategy.”

“Since the equity income strategy was implemented in this vehicle in January 2011 (performance analysis prior to this period is not relevant), it has sur-passed all equity-income rivals that we’ve looked at, whether they be active or passive, fund or exchange-traded fund, option-users or not. It has also achieved its income target over its history (generating a yield of 2% greater than the S&P/ASX 300 Index).”
